Our OCE contract has come to an end and we're replacing the old machines with new, state-of-the-art equipment from Xerox. Instead of a one-size-fits-all method, we'll be installing copier/printer/scanners that are appropriate for the needs of the different areas based on historical duty cycles. We're very excited to be getting new equipment more appropriate for the specific areas. In spaces where consolidating is an option, we'll replace aging copiers and printers with reliable, new devices capable of servicing Faculty/Staff needs better.
