

# Canvas for Students

The Center for Online Education has put together this resource area for Canvas features.

## Canvas Training and Support:

All students are enrolled in the [Canvas 101S](#) - Introduction to Canvas for Students, which is an optional, self-paced tutorial. This tutorial includes many videos and guides to help students learn about Canvas as well as information about online learning and best practices for student success.

Overall, the [Canvas Guides](#) will continue to be the main resource for written and video tutorials.

## FAQ

Please see the spaces below for answers to frequently asked questions regarding different features in Canvas. The Center for Online Education will continue to update and maintain this space as questions arise.
