PowerPoint Overview

PowerPoint is the most widely used presentation resource on campus:

- It works for MAC and PCs.
- Video can be integrated
- Annotations can be made
- It is easy to learn and build from
- All classrooms are equipped to handle the presentation technology

It makes sense that a venue was created to help professors maximize their presentations. Below, you will find various ways to improve your PP content. From making sure that your presentation is in the 16:9 format for wide screens or create 3d slides to wow your audience, IT plans on providing you with information that will empower presentations with proper concepts and pizzazz.
